Suite 1000  
Arlington, Texas 76011

Subject: Status of Vendor Technical Information Update Program at Cooper Nuclear Station

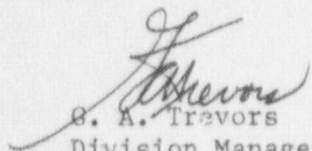

Reference: Letter from G. A. Trevors to J. E. Gagliardo, dated January 15, 1987, "Status of Vendor Technical Information Update Program at Cooper Nuclear Station".

Dear Mr. Gagliardo:

In the referenced letter, your office was informed that certain updated vendor technical information had not been received from five vendors which supply safety-related components to Cooper Nuclear Station (CNS).

This letter is to inform you that vendor technical information has been received from three of the five vendors. Additionally, verbal commitments have been received from the remaining two vendors to expedite the required vendor technical information. The District estimates that all required vendor technical information will be received by December 1987.

Should you have any questions regarding this response, please call.

  
G. A. Trevors  
Division Manager  
Nuclear Support
