

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

Received 9/22/78

September 18, 1978

Mr. James E. McKay
R.R. 1 River Road
Sterling, Illinois 61081

Dear Mr. McKay,

This is in response to your inquiry of September 12, 1978, regarding NRC's investigation of allegations concerning the security program at the Commonwealth Edison Quad cities Nuclear Power Station near Cordova, Illinois.

The NRC investigation of this matter which you referenced in your letter, has, as you know, been completed. A copy of the draft report was forwarded to the U.S. Department of Justice. However, at the specific request of Justice, NRC has held both the processing of civil sanctions and public release of the final version of this document in abeyance pending a decision by Justice as to whether criminal prosecution is warranted. The matter is still before a grand jury.

When Justice concludes its grand jury investigation, NRC will be at liberty to release its own investigation report to you and to the public.

Sincerely,

[Signature]
James L. Kelley
Acting General Counsel
