U.S. NRC  
LIC. FILE NO. 11-000000

Materials Licensing Section  
U.S. Nuclear Regulatory Commission, Region III  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Gentlemen:

Please amend our byproduct materials license no. 13-01719-02 to reflect the relocation of Nuclear Medicine with the hospital. A diagram of the new area, located in the basement is enclosed. The walls are concrete block and all radioactive materials in the hot lab are provided with lead shielding. All radiation safety policies and procedures remain the same except for wording modifications required by the new location.

A closeout survey of the current Nuclear Medicine area will be performed by our consulting physicist prior to its release as an unrestricted area. The survey report will be maintained on file for review during the next NRC inspection.

Tipton County Memorial Hospital is exempt from the fees required by 10 CFR Part 170.
