Washington, D.C. 20037

Dear Mr. Lindbe:

Regarding your letter of September 24, there are no plans now to put ECCS hearing transcripts on microfiche or other readily reproducible records. I believe you have received copies of the three volumes of AEC staff statements. For the remainder of the testimony, the best way to obtain copies is to review the file copies in the Public Document Room, then to either copy the sheets you want--there in the Public Document Room--or request the staff of the Public Document Room to copy and forward the sheets.

The other item you asked about was the successor to WASH-1146. This successor report is WASH-1250, of which I believe you already have copies.

I trust the above information is satisfactory for your purposes.

Sincerely,

Original Signed by
Joseph D. LaFleur, Jr.
