Mr. Joseph Wang
Division of Fuel Cycle and Material Safety
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Wang:

Enclosed are two (2) copies of a renewal application for License No. 47-14862-01 which is due to expire on December 31, 1981. This license was initially issued to Construction Materials, Inc. on December 28, 1971 and renewed via Amendment No. 1 on December 30, 1976.

As per our telephone conversation on December 30, 1981 you informed me that a December 31, 1981 submission date with an appropriate application fee would constitute a proper and timely license renewal procedure. In another NRC telephone communication on December 30, 1981 I was informed by Ms. Glenda Jackson's office that the license renewal application fee for License No. 47-14862-01 was \$110.00. A check in this amount is attached.

Thank you so much for your assistance.

Sincerely,

G. Lansing Blackshaw
CMI Radiation Protection Officer
