Gentlemen:

Subject: Inspection Report No. 50-354/87-19

A routine radiological controls inspection was conducted by Mr. R. L. Nimitz of this office at the Hope Creek Station on July 24-30 and August 11, 12 and 14, 1987. The findings of the inspection were discussed with Mr. S. LaBruna.

The inspection covered: previous findings; organization and staffing; audits; ALARA; and external exposure controls. The inspector also attended a meeting regarding standardization of your radiological controls program.

Within the scope of this review, no violations were identified. However, your corporate QA radiological control audits and certain areas of your radiological control training program needed improvement (See paragraphs 3.21 and 5.2 of the attached inspection report). These areas for improvement were previously identified to your staff.

No response to this letter is required. Your cooperation in this matter is appreciated.

Sincerely,
