Dear Dr. Glenn:

Please accept this letter as a formal request to ammend the referenced license. G.R.O.W.S. wishes to transfer custody of our Troxler Gauge and the associated N.R.C. License to the Waste Management Inc.'s Eastern District Construction Engineering Section. The gauge will continue to be stored at 1121 Bordentown Road, Morrisville, Pennsylvania as currently reflected by our existing license. This request for amendment essentially represents an intercompany transfer due to an internal reorganization of responsibilities. The personnel operating the Troxler Gauge will consist of many of the same employees currently authorized to use the gauge. The only major changes to the subject license will be the names of the licensee and Radiation Protection Officer, Waste Management Inc. Eastern District Construction Engineering Section and Mr. William Jeannette, respectively.

Please contact us if you have any questions or require additional information concerning this request.
