Dear Jim:

My memorandum of February 2, 1979 indicated that we expected the Applicant's FSAR amendment on SONGS 2&3, dealing with seismology, to arrive about February 15, 1979. We have now been notified that this material will not be submitted until March 31, 1979.

Knowing that your agreement to perform the review depended on your workload and the availability of USGS specialists, I am concerned that this delay on the part of the Applicant might jeopardize the timely completion of your review. I would appreciate your reviewing this matter to determine if you are still able to complete the review within eight weeks of receipt of the information. If a change is necessary, please advise me so that we can plan accordingly.

Sincerely,

Original Signed By
Richard P. Denise
