License No. 12-05650-17

Gentlemen:

Please be advised that we have officially retired Byproduct Material License No. 12-05650-17 (Braidwood Nuclear Power Station, Braceville, Illinois). License Condition No. 17 states the license will expire when an operating license is issued for the facility. As of December 18, 1987, both Units 1 and 2 have operating licenses that cover the possession and use of byproduct material at the facility; therefore, a byproduct license is not necessary.

If you have any questions, please do not hesitate to call me at (312) 790-5625.

Sincerely,

Evelyn R. Matson, Health Physicist  
Materials Licensing Section

SUBJECT

COMMONWEALTH EDISON AMENDMENT

REQUEST FOR BRAIDWOOD UNIT 2

SUMMARY

LETTER DATED 7/22/87 CONTROL NO 84267

Mr. McCaughy stated that he amended Com Ed's Lic No SNM-1945 (07003013) to add the Californium-252 and ~~the~~ to allow it to be stored as requested in the 7/22/87 letter.

RIT need take no further action because the licensee now has official authorization to do as they requested. The control no. will be voided.

Dec 31, 1987 memo from Robert Lerch states Braidwood Unit 2 has received an operating license and therefore the byproduct

ACTION REQUIRED

license is terminated. See license Condition No. 17
