

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

March 9, 1989

Docket No. 50-425

Mr. Robert A. Wieseemann, Manager
Regulatory and Legislative Affairs
Westinghouse Electric Corporation
Box 355
Pittsburgh, Pennsylvania 15230-0355

Dear Mr. Wieseemann:

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE
(CAW-89-028)

By letter dated February 15, 1989, Georgia Power Company submitted WCAP-12132, "Surge Line Stratification Presentation Overheads-Georgia Power/NRC Meeting 1/24/89," and requested that it be withheld from public disclosure pursuant to 10 CFR 2.790. Their submittal also included your February 10, 1989, affidavit.

You stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

1. The information sought to be withheld is owned and has been held in confidence by Westinghouse.
2. The information is of a type not customarily disclosed to the public.
3. The information was transmitted to the Commission in confidence.
4. The information is not available in public sources.
5. Public disclosure of the information would cause substantial harm to the competitive position of Westinghouse.

We have reviewed the application and the material in accordance with the requirements of 10 CFR 2.790 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains trade secrets or proprietary commercial information.

Therefore, WCAP-12132, marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

Sincerely,

A handwritten signature in cursive script that reads "Jon B. Hopkins". The signature is written in dark ink and is positioned above the typed name and title.

Jon B. Hopkins, Project Manager
Project Directorate II-3
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
