

02 JUL 1987

License No. 31-00845-01  
Docket No. 030-02619  
Control No. 107265

Veterans Administration Central Office  
ATTN: James W. Fletcher, M.D.  
Nuclear Medicine Service (115)  
810 Vermont Avenue, NW  
Washington, D.C. 20420

Gentlemen:

Please find enclosed an amendment to your NRC Material License.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the Region I Material Licensing Section, (215) 337-5239, so that we can provide appropriate corrections and answers.

Please be advised that you must conduct your program involving licensed radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, please note the items in the enclosed, "Requirements for Materials Licensees."

Prior to release of your old facility for unrestricted use you should be sure that the facilities meet the criteria in the enclosed "Guidelines for Decontamination of Facilities and Equipment Prior to Release for Unrestricted Use or Termination of Licenses for Byproduct Source, or Special Nuclear Material". You should submit a report of the results of the surveys you performed to this office and refer to this letter.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, the NRC expects licensees to pay meticulous attention to detail and to achieve the high standard of compliance which the NRC expects of its licensees.

You will be periodically inspected by NRC. A fee may be charged for inspections in accordance with 10 CFR Part 170. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in prompt and vigorous enforcement action against you. This could include issuance of a notice of violation, or in case of serious violations, an imposition of a civil penalty or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

SUBJ: NRC License Number 31-00845-01

The attached material needs to be transmitted to the U. S. Nuclear Regulatory Commission as quickly as possible so that the Nuclear Medicine Service can move back to the original operating area temporarily vacated for a special hospital construction project. The Nuclear Medicine move is scheduled for May 11, and May 12, 1987.

C. H. CORSARO  
Medical Center Director
