Radiation Emergency Plan
Revision 20

USNRC-03

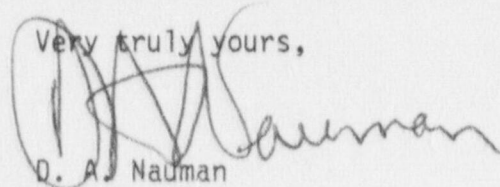

Dear Sir:

As required by 10CFR50.54(q), South Carolina Electric & Gas Company (SCE&G), acting for itself and as agent for South Carolina Public Service Authority, submits one copy of Revision 20 to the Radiation Emergency Plan.

Revision 20 reflects changes in the organizational structure at the Virgil C. Summer Nuclear Station, and also reflects additional corrections to the emergency action levels. This revision, which has been reviewed by the Plant Safety Review Committee, does not decrease the effectiveness of the Radiation Emergency Plan to meet the standards of 10CFR50(b) and Appendix E.

If you have any questions on this matter, please let me know.

Very truly yours,

D. A. Nauman
