Project Directorate 3-1  
Nuclear Regulatory Commission  
Washington, D.C. 20555

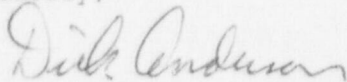

Dear Mr. Wiggenton:

We have been informed that your agency is holding a meeting with Northern States Power Company of Minnesota on Friday, August 14th in Bethesda, Maryland. We would like this meeting to take place in St. Paul, Minnesota. Please give serious consideration to this request. Some misinformation has been circulated, in Minnesota, on rod consolidation.

In order that State and local officials and community residents may be properly informed on the rod consolidation issue, we feel it imperative that the meeting with NSP be held in Minnesota. This is a Minnesota issue and Minnesotans are concerned about it.

We request that you make every effort to change the meeting place to allow for participation of interested persons even if it requires that the meeting be rescheduled for a later date. Please respond by letter or phone at your earliest convenience.

Sincerely,

Dick Anderson
