Subject: SONGS - Allegations of Drug and Alcohol Use by Bartlett Nuclear
Employees On and Off the Site (Q5-84-032)
Region V ATS No. RV-84-A-0092

Dear Sir:

Attached is a Report of Inquiry dated December 28, 1984 on the above captioned subject. This information covers some of the matters I discussed with you by telephone on August 29, 1984 and December 17, 1984. I apologize for having to take so long to get it to you in writing. I will, by separate cover, send you the other information I have on alleged drug activity at SONGS.

I would appreciate your contacting by telephone either Messrs. Doug SCHUSTER, Chief, Safeguards Section, FTS 463-3780; or Greg YUHAS, Chief, Reactor Radiation Protection Section, FTS 463-3748, when it will be permissible for them to have their inspectors inspect the alleged violation of procedures in safeguards and health physics. You need only call one of them, and that person will advise the other. Should both of them not be available, please call me at FTS 463-3802. They have held off inspecting the activities where the alleged violations occurred so as not to, in any way, interfere with the FBI's investigation.

Your cooperation is greatly appreciated.

Very truly yours,

Owen C. Shackleton Jr.

Owen C. Shackleton Jr., Director
