

Docket No. 50-601

March 9, 1989

MEMORANDUM TO: James Conran, Assistant for CRGR Issues
Office of Analysis and Evaluation of
Operational Data

FROM: Charles L. Miller, Director
Standardization and Non-Power Reactor
Project Directorate
Division of Reactor Projects - III, IV,
V and Special Projects
Office of Nuclear Reactor Regulation

SUBJECT: DRAFT SER REGARDING RESAR SP/90

Enclosed are 15 copies of my letter to Mr. W. J. Johnson, Manager of the Nuclear Safety Department, Westinghouse Electric Corporation, dated March 9, 1989, forwarding the staff's Draft SER (DSER) on various technical areas, including:

- mechanical engineering
- structural engineering
- reactor systems
- plant systems
- fire protection
- radiation protection
- accident analysis
- human factors engineering

These copies are being provided to inform the CRGR members and staff of our progress in reviewing the PDA application.

The rest of the PDA application is presently under review, and the staff plans to issue additional DSERs through July 1989, as necessary. The staff will evaluate any additional input from Westinghouse and the ACRS, and incorporate it into its final SER, schedule to be issued in October 1989.

Should CRGR desire further information about our review, we will be pleased to discuss it with them.
