Subject: Pilgrim Nuclear Power Station Restart Plan

Dear Sir:

This letter transmits the Pilgrim Nuclear Power Station (PNPS) Restart Plan as agreed at the management meeting (87-28) held at Region I on June 29, 1987.

The Restart Plan describes the programs, plans, and actions considered necessary by Boston Edison Company management for safe and reliable restart and continued operation of Pilgrim Nuclear Power Station.

The Plan consists of two volumes. Volume 1 is primarily a programmatic description and contains a limited description of the results of Boston Edison's restart efforts. Volume 2 consists of a set of Appendices that provide additional results to date. The Appendices will be updated by revision to Volume 2 submitted six weeks before restart (Vol. 2, Revision 1). Final results will be submitted three weeks before restart (Vol. 2, Revision 2).

Please feel free to contact me or R. A. Ledgett of my staff if you have any questions or need additional information concerning the PNPS Restart Plan.

R. G. Bird
