Arlington, TX 76011

Ref: Materials License #49-19605-01 Amendment
Job #310-G

30-18955

Dear Sir:

Scott Engineering Company is changing office location in Gillette, and the storage area for source material used in a troxler model 3411 B surface moisture density gauge. Our old location and storage area was at 3400 Conestoga Drive, Gillette, Wyo. The new location is at 811 Edwards Road, Gillette, Wyo. Our mailing address is still P.O. Box 2097. The change to license condition #10 would be: licensed material may be used at "811 Edwards Road", Gillette, Wyo. and at temporary job sites of the licensee anywhere in the United States where the U.S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material. The change to license condition #12 would be: licensed material shall be used by, or under the supervision and in the physical presence of Edward S. Scott, John Scott, Ken Hier, or "Jack C. Hooven". (Adding Jack C. Hooven and deleting James D. Witt, and Jeanine Lucas.)

Sincerely,

SCOTT ENGINEERING COMPANY

Edward S. Scott
