SEP 5 1987

SUBJECT: Byproduct Materials License

FROM: Earl W. Davey, Radiation Safety Officer *EWD*  
ERL-Narragansett

TO: U.S. Nuclear Regulatory Commission  
Division of Fuel Cycle and Material Safety, NMSS  
Washington, DC 20555

This is a request to renew our Byproduct Materials License which expires on September 30, 1987. Our current license, with all of its amendments plus changes in personnel and instrumentation, have made us rewrite extensive changes in the new application.

Please excuse the lateness of this application. Our past Radiation Safety Officer recently went on sabbatical without completing this application; therefore, I didn't have enough time to complete the application within your prescribed time table.

For your information, I have attached a copy of our current Materials License.

cc: Health & Safety Officer
