

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

July 30, 1987

Docket No. 50-601

Mr. R. A. Wiesemann, Manager
Regulatory and Legislative Affairs
Westinghouse Electric Corporation
P. O. Box 355
Pittsburgh, Pennsylvania 15230-0355

Dear Mr. Wiesemann:

SUBJECT: WITHHOLDING FROM PUBLIC DISCLOSURE - WESTINGHOUSE COMMENTS ON DRAFT
BNL/NRC REPORT ON THE PRA FOR RESAR SP/90 - AW-87-059

By your application, dated June 15, 1987, you submitted copies of Westinghouse's comments on the draft BNL/NRC Report on the PRA for RESAR SP/90 and requested that they be withheld from public disclosure pursuant to 10 CFR 2.790.

You stated that the submitted information should be considered exempt from mandatory disclosure since the material contains information considered proprietary to the Westinghouse Electric Corporation, and will not be employed as a part of the license application or other action identified in 10 CFR 2.790(a) at this time.

We have reviewed your application and the material based on the requirements and criteria of 10 CFR 2.790 and, on the basis of your statement, have determined that the submitted information sought to be withheld contains trade secrets or proprietary commercial information.

Accordingly, we have determined that the information should be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954 as amended.

We therefore approve your request for withholding pursuant to 10 CFR 2.790 and are withholding the above stated documents and information from public inspection as proprietary.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, insure that the consultants have signed the appropriate agreements for handling proprietary information.

Mr. R. A. Wiesman

- 2 -

If the basis for withholding this information from public disclosure should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You should also understand that the NRC may have cause to review this determination in the future, such as if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC needs additional information from you or makes a determination adverse to the above, you will be notified in advance of any public disclosure.

Sincerely,

original signed by
Thomas J. Kenyon, Project Manager
Standardization and Non-Power
Reactor Project Directorate
Division of Reactor Projects III, IV,
V and Special Projects
Office of Nuclear Reactor Regulation
