

NOV 29 1982

NOTE FOR: Ed O'Donnell

The paper you sent entitled "Characterization of Radionuclide Behavior in Low-Level Waste Sites" was well done. One suggestion is to identify the location of the "aqueous waste disposal site" and give a little background on it in the paper.

REMARKS

Attached for your information is a copy of a paper presented by A. Toste et al. on "Characterization of radionuclide behavior in LLW sites". It is based on work performed at Maxey Flats and the N reactor. If you have any comments on the paper I will be happy to pass them on to the authors.
