Subject: FYI - SNC Inspection at ANO Postponed

I have been informed by the VSC-24 Owners Group (SNC, ANO, Point Beach, and Palisades) that they want to postpone the inspection of UT examination procedure for the VSC-24 closure welds by 2 weeks - to the week of March 16, 1998. The reason for the delay is an unsuccessful paint job on the mock-up - the topcoat peeled in several areas.

This inspection was originally planned by SFPO for the week of 3/2/98 at the ANO site.
