Beth A Riedlinger
Health Physicist (Licensing)
Nuclear Material Safety Section
United States Regulatory Commission
Region V
1450 Maria Lane, Suite 210
Walnut Creek, California 94596

Dear Ms. Riedlinger,

Because our license is currently being reviewed for renewal, I am addressing this letter requesting amendment of our license to you in order to avoid confusion. We request the following amendments to our license: 1) We wish to add sulfur-35 to our license for in vitro use with a possession limit of 4 millicuries; 2) We wish to increase our position limit for phosphate 32 to 10 millicuries.

We are in urgent need of increasing the amount of P32 that we can order and will greatly appreciate your attention to this matter.

Sincerely,

David Mott, Ph.D.
