NOTICE OF SEPTEMBER 29TH MEETING WITH THE TEXAS LOW-LEVEL RADIOACTIVE WASTE
AUTHORITY AND THEIR CONTRACTOR ROGERS AND ASSOCIATES

PLACE: Second Floor Conference Room

TIME: 9:00 A.M.

The Texas Authority requested the meeting to provide them an opportunity to review with LLWM technical staff the preliminary design of their proposed LLW disposal facility. Attached is a list of questions they would like to discuss with LLWM staff. The questions are divided into two different areas: 1) Quality Assurance; and 2) Design Considerations. I suggest we plan to have a pre-meeting in the second floor conference room on September 24th at 1:00 p.m. to discuss the questions and our approach for addressing them.

Paul H. Lohaus
