**Re: Application for Export License to export Enriched UF6
for Kyushu - Genkai Unit No. 2, Region 19**

Dear Ms. Wright,

Please find enclosed our check for USDLS 2,900.00 and application for a license to export Enriched Uranium Hexafluoride (EUF6). This material will be used for the fabrication of fuel assemblies and ultimately loaded into Genkai Unit No. 2, Region 19, owned by Kyushu Electric Power Co.

The contract for the Uranium Enriching Services with the United States Enrichment Corporation (USEC) is DE-SC05-84UEJA206.

Please note that the feed material is supplied by the USA and Canada.

The relevant Enriched Uranium Hexafluoride will be delivered from USEC's Portsmouth Enrichment Plant in Piketon, Ohio. After being exported to Japan, it will be converted to UO_2 powder, pelletized and fabricated into fuel assemblies by Mitsubishi Nuclear Fuel Co., Ltd.

As to the validity of the export license, we wish to have a two-year period from the date of issuance.

Mitsubishi International Corporation

With regard to sampling, we request that Three (3) P-10 tube samples be taken from each parent cylinder, these samples should be delivered to Mitsubishi International Corporation c/o Teledyne Brown Engineering Environmental Services for independent analysis. We also request that JAI Corporation witness the weighing, sampling and loading operation.

Thank you for your attention to the above and should you have any questions, please call me at (212) 605-2152.

Sincerely

Cecelia Autar
