

NUCLEAR ENERGY INSTITUTE

Alan Nelson
SENIOR PROJECT MANAGER,
PLANT SUPPORT
NUCLEAR GENERATION

September 29, 1997

Mr. Charles J. Haughney
Acting Director
Spent Fuel Project Office
Office of Nuclear Material Safety
and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Haughney:

I would like to take this opportunity to invite you to attend and participate in the two and half day EPRI/NEI Decommissioning Workshop December 10-12, 1997, in San Antonio, Texas. Enclosed is the agenda and registration form. There is no registration fee for invited speakers.

We would like you to participate in the "Dry Storage Options" panel scheduled for December 12, 1997. This panel will provide attendees an opportunity to discuss emerging spent fuel storage issues. We would like you to provide a year end update of NRC spent fuel storage initiatives and activities. I have invited two industry utility managers to join you on the panel to speak about their site-specific experiences (Licensing, fabrication and oversight activities). Each panelist has been requested to provide a 20-25 minute presentation and be prepared to dialogue with attendees during a question and answer period.

If you have any questions regarding this request please contact me at (202) 739-8110 or by e-mail (apn@nei.org).

Sincerely,

Alan Nelson
