

ENCLOSURE

NOTICE OF VIOLATION

Redondo Construction Corporation
San Juan, PR

Docket No. 030-29105
License No. 52-24834-01

During the Nuclear Regulatory Commission (NRC) inspection conducted on November 18, 1987, violations of NRC requirements were identified. The violations involved a failure to carry shipping papers during transport of licensed material and a failure to perform inventories of licensed material. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1986), the violations are listed below:

- A. 10 CFR 71.5(a) requires that each licensee who transports licensed material outside of the confines of its plant or other place of use shall comply with the applicable requirements of the regulations, appropriate to the mode of transport, of the Department of Transportation in 49 CFR Parts 170-189.

49 CFR 172.200(a) requires that each person who offers a hazardous material for transportation shall describe the hazardous material on a shipping paper.

Contrary to the above, the licensee has transported licensed hazardous material outside the confines of its office since approximately May 1986, without shipping papers.

This is a Severity Level IV violation (Supplement V).

- B. License Condition 14 states that the licensee shall conduct a physical inventory every six (6) months to account for all sealed sources possessed under the license.

Contrary to the above, the licensee failed to conduct physical inventories between April 1986 and November 1987. A period that exceeds the requirement.

This is a Severity Level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, Redondo Construction Corporation is hereby required to submit to this Office within 30 days of the date of the letter transmitting this Notice a written statement or explanation in reply including: (1) admission or denial of the violation, (2) the reason for the
