Mr. D. R. Gipson  
Senior Vice President  
Nuclear Generation  
The Detroit Edison Company  
6400 North Dixie Highway  
Newport, MI 48166

SUBJECT: NRC INSPECTION REPORT 50-341/98005(DRS)

Dear Mr. Gipson:

A letter resolving the findings of the subject inspection was issued on July 15, 1998. The letter correctly described the closure of the inspection issues on response time testing as a non-cited violation of the requirement to perform an adequate safety evaluation. As I discussed with you on August 3, 1998, a Notice of Violation was inadvertently enclosed with that letter. Please replace the previous letter with the attached revised letter.

We regret any inconvenience this may have caused.

Sincerely,

Original /s/ J. A. Grobe
