Reference: Materials Annual Fee for License No. 34-20292 -02

Dear Ms. Dandois:

This letter is in response to the enclosed invoice regarding our materials annual fee. Please be advised that we have not possessed any nuclear density gauges since March of 1997 and this year donated the last remaining source item to a major university. As a result we wish to terminate our Materials license and also request that the fee for 1998 be waived or partially reduced.

Attached is a copy of the current invoice and a 314 Form and supporting evidence concerning source disposition.

We look forward to a response to this request. If additional information is needed, please contact me at (330) 666 - 2200; extension 312 or by fax at 330 666-7874.

Thank you for your time and consideration.

Respectfully,

A handwritten signature in dark ink, appearing to read "P. David Gura", is written over a light-colored background.

P. David Gura
Manager, Safety, Health, and Quality Assurance
