Gentlemen:

This refers to the inspection conducted by Mr. C. A. Hackney of this office during the period November 2-6, 1987, of activities authorized by NRC Operating License DPR-34 for the Fort St. Vrain Nuclear Generating Station, and to the discussion of our findings with you and members of your staff at the conclusion of the inspection.

Areas examined during the inspection included operational status of the emergency preparedness program, notifications and communications, public information, and licensee audits. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspector. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

The enclosed report identifies two deficiencies in your emergency preparedness program observed during this inspection. It is requested that within 30 days after the receipt of this letter you provide this office with a schedule for correcting these deficiencies.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By

A. B. Beach
