

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

December 10, 1986

The Honorable John Bryant  
United States House of Representatives  
Washington, D.C. 20515

Dear Congressman Bryant:

As requested by your letter, dated December 4, 1986, I am forwarding a copy of the report of the Office of Inspector and Auditor (OIA) on Region IV activities concerning the Comanche Peak Steam Electric Station. Also enclosed is a list of attachments to the report which, because of their length (over 3000 pages), have not been included. Should you want to review any or all of the attachments, please have your staff contact our Office of Congressional Affairs (634-1443) to make suitable arrangements.

I am also enclosing a Note to Editors and an edited version of the report which we plan to release to the on public Friday, December 12, 1986. The reason for sending you an edited version is so that you may readily see those portions of the report which have been deleted from public release.

I respectfully ask that access to the unedited report be restricted to you and your staff.

For your information, the Commission asked the Executive Director for Operations to inform us of what actions he has taken and other actions he would recommend as a result of his review of the report. I will inform you of further developments in this matter.

Sincerely,

*Lando W. Zech Jr.*  
Lando W. Zech, Jr.
