Re: In the Matter of Office of Investigations
Investigative Interview, Case No. LB-85-214

Dear Mr. Pawlik:

I am forwarding to you under separate cover the Affidavit of David A. Aniol, which is to supplement the transcript of Mr. Aniol's interview conducted by the Office of Investigations in the above-referenced case on July 23, 1985 in Glen Ellyn, Illinois. This affidavit will clarify many of Mr. Aniol's statements that do not accurately reflect his recollection of the events surrounding the reactor operator rod pull error at the Detroit Edison Fermi 2 Nuclear Power Station on the evening of July 1-2, 1985.
