Department of the Air Force
USAF Radioisotope Committee
HQ AFOMS/SGPR
Brooks AFB, Texas 78235-5000

Gentlemen:

This is to notify you of a change in contact at the Region IV office in regard to certain matters involving Air Force licensed activities. Effective January 3, 1988, J. B. Baird, Technical Assistant, Division of Radiation Safety and Safeguards, will replace Mr. C. L. Cain as the primary contact at the Region IV office. Mr. Cain will continue to be the contact for matters related to any proposed amendment of License 42-23539-01AF and other technical questions regarding the permitting process. Mr. Baird will be the contact for all other matters including those involving NRC or Air Force inspection of permittees, incident reports, and related enforcement.

These matters were discussed with Col. David G. Wood of your staff during the NRC inspection conducted at Brooks AFB, Texas, on November 2, 1987. If you have any questions in regard to this matter, please contact the undersigned.

Sincerely,

Original Signed By

Richard L. Bangart, Director
Division of Radiation Safety
and Safeguards
