

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

Case 15

FEB 25 1987

MEMORANDUM FOR: Jack R. Goldberg, Deputy Assistant
General Counsel for Enforcement

FROM: Guy A. Arlotto, Chairman
Comanche Peak Report Review Group (CPRRG)

SUBJECT: APPLICABILITY OF FINAL SAFETY ANALYSIS REPORT
TO PLANT UNDER CONSTRUCTION

The record being reviewed by the CPRRG indicates that some NRC inspection and enforcement of construction activities at Comanche Peak has been premised upon the Final Safety Analysis Report (FSAR). In this regard, the CPRRG requests your opinion about whether citations against the FSAR are appropriate for a plant under construction.

Because of the tight deadline we must meet, we would appreciate a prompt response.

Guy A. Arlotto, Chairman
Comanche Peak Report Review Group
