U.S. Nuclear Regulatory Commission
Attention: Mr. Marvin R. Peterson
Assistant Director for International Security -
International Programs
Office of Governmental and Public Affairs
Washington, DC 20555

License No. XSNM-02161

Dear Mr. Peterson:

Advanced Nuclear Fuels Corporation hereby requests that the reference license for export of nuclear fuels to Euratom nations be amended as follows.

Biblis A - West Germany

Increase the amount authorized for shipment to Biblis A by 410 kgs U-235 contained in 12,965 kgs of total uranium. This increase is to supply customer requirements in addition to those previously authorized for reloads XN-9 and XN-10. The total amount then authorized for shipment to Biblis A becomes 5322 kgs U-235 contained in 165,044 kgs of total uranium.

EdF - France (Blayais 1, 2, 3 & 4)

Increase the amount authorized for shipment to EdF by 745 kgs U-235 contained in 19,895 kgs of total uranium to accommodate customer requirements for reload XN-12. The total amount then authorized for shipment to EdF becomes 6315 kgs U-235 contained in 175,045 kgs total uranium.

These increments will bring the total authorized by the reference license to 24,597 kgs U-235 contained in 689,681 kgs total uranium.

Sincerely,

8708270140 870819
