King of Prussia, Pennsylvania 19406

Re: Renewal of Materials License No. 18-21013-01  
Expiration Date May 31, 1987

Gentlemen:

This letter is written requesting renewal of the above reference license. I have reviewed my current license and have determined that the information about the sealed sources and portable gauging devices accurately represent my current and anticipated program. I have also reviewed the documents that I have submitted in the past to determine that the information in them is up-to-date and accurately represents my facilities, equipment, personnel, radiation safety procedures, locations of use and so on. I have reviewed NRC regulations and to the best of my knowledge feel that any changes in the regulations are still appropriately covered in my program.

Enclosed is my check made out to The United States Nuclear Regulatory Commission in the amount of One Hundred Twenty Dollars (\$120.00). Please review this letter along with my current license and associated documents at your earliest convenience. If you need any additional information, feel free to give me a call at Area Code 207 496-1211. Any correspondence should be mailed to the address noted on Item No. 2 of my current license.

Sincerely,

Brescia Construction, Inc.
