Office of Nuclear Reactor Regulation (NRR)
Items of Interest
Week Ending AUGUST 14, 2020

Staff Hosted Public Meeting Regarding the Use of Risk Insights in Title 10 of the Code of Federal Regulations (10 CFR) Section 50.59 Evaluations

On August 5, 2020, the U.S. Nuclear Regulatory Commission (NRC) staff held a public meeting with the Nuclear Energy Institute and other industry representatives and stakeholders to discuss incorporating risk insights into 10 CFR 50.59, "Changes, tests and experiments," evaluations (Agencywide Documents Access and Management System (ADAMS) Accession No. ML20206K921). Regulations in 10 CFR 50.59 establish the conditions under which licensees may make changes to their facility or procedures and conduct tests or experiments without prior NRC approval. A follow-up public meeting is planned for September 2020. These engagements are vital as the staff considers developing new guidance to ensure risk-focused 10 CFR 50.59 inspections.

Staff Hosted Public Meeting with the Technical Specifications Task Force

On August 6, 2020, the NRC staff held a regularly scheduled quarterly public meeting with the industry Technical Specifications Task Force (ADAMS Accession No. ML20209A417). Discussions included a status of proposed changes to the Standard Technical Specifications (STS) currently under review and the ongoing revision of the STS NUREG-series publications. The next quarterly meeting is scheduled to take place in November 2020. Current versions of the STS are available on the NRC public website at <https://www.nrc.gov/reactors/operating/licensing/techspecs/current-approved-sts.html>.

Staff Hosted Public Meeting with NuScale Power LLC Regarding NuScale 720 Pre-Application Activities

On August 13, 2020, the NRC staff held a public meeting with NuScale Power, LLC to discuss their plan for topical report (TR) submittals to support a forthcoming Standard Design Approval (SDA) application for the up-powered NuScale small modular reactor design, NuScale 720 (ADAMS Accession Nos. ML20219A639 and ML20212L873). This SDA application would incorporate changes to the NuScale design that include an increase in thermal power output along with updates that improve commercial viability. Currently, the staff is reviewing two TRs and the next TR is expected to be submitted by the end of 2020. Additional information regarding the SDA application for NuScale 720 is available on the NRC public website at <https://www.nrc.gov/reactors/new-reactors/smr/nuscale-720-sda.html>.

Staff Approved Licensing Requests for Regulatory Relief Related to the COVID-19 Public Health Emergency

The NRC staff has reviewed and approved several licensing requests seeking temporary flexibilities to maintain the safe and secure operation of the U.S. nuclear fleet during the pandemic. A summary of approved licensing actions provided during this reporting period are summarized below. A complete list of licensing actions approved by the NRC in response to the COVID-19 public health emergency is available on the NRC public website at <https://www.nrc.gov/about-nrc/covid-19/reactors/licensing-actions.html>.

Licensing Request for Regulatory Relief Related to COVID-19

Clinton Power Station, Unit 1 (Exelon Generation Company, LLC)

Type	Subject	Incoming Request	Decision
Exemption	Select Requirements of 10 CFR Part 73, Appendix B, "General Criteria for Security Personnel"	07/23/2020 Non-public (security-related)	08/13/2020 ML20209A000

Callaway Plant, Unit No. 1 (Union Electric Company (Ameren Missouri))

Type	Subject	Incoming Request	Decision
Other Licensing Action	Revision of Operating Quality Assurance Manual to Extend the Grace Period for Completing Vendor Audits and Surveys	07/08/2020 ML20190A195	08/06/2020 ML20216A681

Comanche Peak, Unit 1 (Vistra Operations Company, LLC)

Type	Subject	Incoming Request	Decision
Relief Request*	Defer Inservice Inspection (ISI) of Multiple Component Welds	07/14/2020 ML20196L875	08/10/2020 ML20224A055
	Defer Augmented ISI for Reactor Vessel Bottom Mounted Instrumentation Nozzle Penetrations Examinations	07/17/2020 ML20196L827	
	Defer Augmented ISI for Reactor Vessel Upper Head Control Rod Drive Mechanism Nozzle Penetrations Examinations	07/14/2020 ML20196L828 08/05/2020 ML20218A863	
Relief Request*	One-Time Extension of Specific Inservice Testing Program Requirements for Certain Snubbers	07/14/2020 ML20196L873 08/05/2020 ML20218A853	08/11/2020 ML20225A152
	One-Time Extension of the Inservice Testing Examination and Testing Interval for Certain Check and Relief Valves	07/14/2020 ML20196L876	

** For verbal authorizations, the staff provides the written text of the teleconference summarizing the staff's review as an agency record and prepares a written safety evaluation with the details of the staff's review within 150 days in accordance with NRR Office Instruction LIC-102 (ADAMS Accession No. ML18351A218).*

Graphics Support Services

On August 11, 2020, contract number 31310020C0024 was awarded to All Things Creative, LLC in Lanham, MD. The purpose of this contract is to provide comprehensive graphic design, production, and creative services to support the requirements of the NRC. The period of performance is from August 7, 2020 to August 6, 2021 with four option periods. The total potential value of the contract can be up to \$828,845.00.

Oracle Human Capital Management Cloud for Time and Labor, Subscription Software as a Service

On August 7, 2020, contract number NNG15SC10B/31310020F0092 was awarded to Emergent, LLC in Virginia Beach, VA. The purpose of this contract is to provide Oracle Human Capital Management Cloud for Time and Labor, Subscription Software as a Service. The period of performance is from October 15, 2020 to October 14, 2021 with two option periods. The total potential value of the contract can be up to \$1,659,996.00.

DELL 7210 2-in-1 Tablets

On August 7, 2020, contract number GS35F0889N/31310020F0099 was awarded to MCP Computer Products Inc. in San Marcos, CA. The purpose of this contract is to provide 200 Dell 7210 2-in-1 tablets, monitors and other hardware accessories. The period of performance is from August 7, 2020 to August 6, 2023. The total potential value of the contract can be up to \$661,735.00.
