The Honorable B. Paul Cotter, Jr.
Atomic Safety and Licensing Board
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Judge Cotter:

Attached is a resolution on Reracking The Spec. Fuel Pools At
The Diablo Canyon Nuclear Power Plant, passed by the Santa Maria
Valley Developers, Inc at its Board of Directors meeting today
by unanimous vote.

We ask that this resolution be noted by your office and be
included in those documents you are to review as you consider
this case.

In addition, we request that you send us a copy of your decision.

Sincerely,

Herb Gerfen, President

RESOLUTION

REREACKING THE SPENT FUEL POOLS AT THE DIABLO CANYON NUCLEAR POWER PLANT

- WHEREAS, Pacific Gas and Electric Company has applied to the Nuclear Regulatory Commission for permission to increase the amount of spent nuclear fuel that can be stored in the spent fuel pool facility at Diablo Canyon Nuclear Power Plant; and
- WHEREAS, Pacific Gas and Electric Company must keep all spent fuel on-site until a federal repository is in place, sometime in the next 15 to 20 years; and
- WHEREAS, the proposed reracking of the spent fuel pool to accommodate additional fuel assemblies is consistent with similar activities by numerous other utilities; and
- WHEREAS, reracking will not require enlarging or adding new storage pools; and
- WHEREAS, Diablo Canyon Nuclear Power Plant is an outstanding value to P G & E customers and has an exceptional safety and performance record.
- NOW, THEREFORE; the Santa Maria Valley Developers, Inc. do hereby proclaim support for Pacific Gas and Electric Company to increase spent fuel storage capacity in order to continue the safe operation of its Diablo Canyon Nuclear Power Plant.

THE SANTA MARIA VALLEY DEVELOPERS, INC.

President

Secretary (Acting)

Dated: June 16, 1987
