ATTN: John E. Glenn, Ph.D., Chief

SUBJECT: Amendment to License No. 37-19991-01

RECEIVED

'87 APR 16 P1:30

US NRC
MAIL FILE ROOM, BRANCH

Dear Dr. Glenn:

This is a request by Kaiser Engineering, Inc., for an amendment to our NRC License No. 37-19991-01. This amendment would permit our company to install, relocate, service, and conduct leak tests on three Ronan SA 1-C5 source holders with 1000 millicuries source of Cesium 137 radioactive materials.

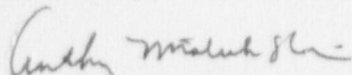

Installation and/or relocation of the device will be done under the supervision of Nicholas Hoffman, Tom DiMuzio or Anthony Matarkowski, who are listed on the original license.

Surveying and leak testing of the device will be done every three years in accordance with the procedure outlined in the original license by the authorized personnel.

The Ronan SAI-C5 sources will be used to indicate density in the testing pipe line and will be installed in the section of the plant indicated by the drawing.

If you need more information or documentation, please feel free to contact me.

Sincerely,

Anthony T. Matarkowski
Instrumentation/Electrician Leader
