Dear Miss Joustra:

Subject: Amendment for Nickel 63 to
NRC License Number 06-07945-01

As you suggested in our telephone conversation of June 25, 1987, I am writing to have the NRC disregard our June 2, 1987 request for an amendment to our license allowing the State of Connecticut, Department of Transportation, to purchase and use a gas chromatograph containing Nickel 63.

The manufacturer, Perkin-Elmer, has a general NRC license to distribute this equipment; therefore, according to your office, it is not necessary to amend our license.

If you have any questions concerning this matter, you may call me at (203) 529-7741, Extension 66.

Very truly yours,

Frederick Nashold
