MEMORANDUM FOR CHAIRMAN SEABORG  
COMMISSIONER HAWORTH  
COMMISSIONER PALFREY  
COMMISSIONER RAMEY  
COMMISSIONER WILSON

SUBJECT: PG&E REACTOR AT BODEGA BAY, CALIFORNIA

This will confirm my oral communication to the Commissioners on Thursday, December 27, in regard to the Pacific Gas and Electric reactor at Bodega Bay, California. We understand that the application for a construction permit is being mailed today.

Considerable public interest has been aroused concerning this project. In view of the public interest already evident, Mr. Grendon, the California State Coordinator, has requested that the (mandatory) public hearing on the construction permit be held in California. We feel that this is a desirable move and, upon receipt of the PG&E application, we believe an announcement to that effect should be issued.
