

DLR:CTE
Docket No. 30-205

SEP 24 1963

Mr. Fred W. Wamble
2021 Phillips Avenue
Corcoran, California

Dear Mr. Wamble:

This acknowledges receipt of your letter of August 15, 1963 addressed to Chairman Seaborg in which you expressed your position in favor of the nuclear power reactor proposed for construction at Bodega Bay, California.

We feel confident that the Commission's regulatory procedures and their provision for public hearing will assure thorough consideration of all aspects of the proposed plant bearing on the question of whether it can be constructed at the proposed site without undue risk to the health and safety of the public.

Sincerely yours,
