

APR 04 1989

Docket No. 50-461

Illinois Power Company
ATTN: Mr. W. C. Gerstner
Executive Vice President
500 South 27th Street
Decatur, IL 62525

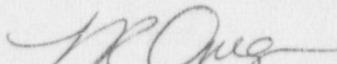

Gentlemen:

We have received your letter dated March 27, 1989, which transmitted your proposed objectives for the Clinton Power Station's annual exercise scheduled for June 28, 1989. Based on our review of this submittal, and a discussion with Mr. W. Yarosz of your staff on April 3, 1989, we have determined that these objectives are acceptable. Regarding Objective No. 6, Mr. Yarosz indicated that the evacuation of assembled nonessential onsite personnel will be simulated. We also understand that assembly of onsite personnel during the exercise will not be utilized to satisfy a periodic drill requirement. Mr. Yarosz was informed of the approximate size of the inspection team for this exercise so that your staff could plan on submitting a separate scenario manual for each inspection team member's review and comment.

If you have any questions, or revisions to the exercise objectives, please have your staff contact Mr. T. Ploski of my staff at (312) 790-5529.

Thank you for your cooperation.

Sincerely,

L. Robert Greger, Chief
Reactor Programs Branch
