Vice President & General Counsel

Gentlemen:

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION, FIRE PROTECTION REVIEW  
DIABLO CANYON NUCLEAR POWER PLANT, UNITS 1 & 2

As a result of our continuing review of the <sup>AMEND. 5</sup> ~~\_\_\_\_\_~~ <sup>FIRE PROTECTION ANALYSIS</sup> ~~\_\_\_\_\_~~ presented in ~~\_\_\_\_\_~~ to your operating license application we find that additional information is required to complete our review. The additional information required is described in the enclosure. My letter of November 9, 1977 transmitted a request for information concerning organization, controls and quality assurance as they relate to the fire protection analysis. The items in the enclosure are numbered sequentially from that previous request.

You should note that in accordance with our current policy for operating license review, prior to issuance of an operating license, the NRC staff's fire protection review must be completed and an appropriate implementation schedule specified for any fire protection improvements that may be required.

Please contact us if you have any questions or comments concerning this matter.

Sincerely,

John F. Stolz, Chief  
Light Water Reactors Branch No. 1
