Docket Nos. 50-352-OL

ORDER

In an opinion issued February 28, 1989, the United States Court of Appeals for the Third Circuit granted a petition for review filed by intervenor Thomas Martin, who represents a group of inmates at the State Correctional Institution in Graterford, Pennsylvania. Martin v. NRC, No. 87-3190, slip op. at 77. In granting that petition, the Court ordered the agency to give additional consideration to an inmate contention questioning whether the radiological emergency response plan relating to the Graterford Institution complies with the standard of 10 C.F.R. § 50.47(b)(15) that radiological response emergency training is provided to civilian personnel (e.g., bus and ambulance drivers) who may be called upon to assist in the event of an emergency that would require evacuation of the Graterford prison. Id. at 69-71.

We hereby direct the Chairman of the Atomic Safety and Licensing Board Panel forthwith to convene a Licensing Board to conduct such additional proceedings relating to this contention as are necessary to comply with the Court's decision. These proceedings shall be conducted in accordance with 10 C.F.R. Part 2, Subpart G and expedited to the extent consistent with fairness to the parties. Any appeal of the Licensing Board's initial decision relating to this contention also shall be in accordance with Subpart G.

It is so ORDERED.
