Gentlemen:

This refers to your letter dated May 22, 1989, and the telephone conversation on June 7, 1989, between Mr. Timothy DeBey of your office and myself regarding our letter and Notice of Violation dated May 9, 1989. After review of the information provided in your response and the telephone discussion, we have decided to withdraw the violation concerning the detection system. It is our understanding that you will submit, by July 15, 1989, an update to your physical security plan that will provide specific details on the location and type of detectors included in your present alarm system.

The open item involving your facility operating procedures was also discussed during the June 7, 1989, telephone discussion. It is our understanding that the facility staff and Reactor Operations Committee will conduct a review of existing procedures. The purpose of the review would be to identify those procedures where additional details and step-by-step guidance should be added to ensure that the user is provided enough information to accomplish the tasks addressed in various procedures in an acceptable manner.

In accordance with 10 CFR 2.790(d), the enclosure to this letter is exempt from public disclosure. Therefore, the Proprietary Information in the enclosure to this letter will require that it not be placed in the Public Document Room and distribution will be limited.

Should you have any questions, please contact me at (317) 860-8126.
