

June 14, 1989

Ms. B. Sines, Plant Manager
 Square D Company
 Cedar Rapids, Iowa 52404

Dear Ms. Sines:

This letter addresses the inspection of your facility at Cedar Rapids, Iowa, conducted by Mr. K. R. Naidu and Mr. H. M. Wescott, of this office on March 27-29, 1989, and the discussions of their findings with you and other members of your staff at the conclusion of the inspection.

The purpose of the inspection was to review the implementation of your quality assurance program in selected areas, even though you manufacture and supply molded case circuit breakers as commercial grade items to your plant located in Peru, Indiana.

Areas examined during the NRC inspection and our findings are discussed in the enclosed report. This inspection consisted of an examination of procedures and representative records, interviews with personnel, and observations by the inspectors.

The inspection determined that your documented corporate commercial grade quality assurance program, along with plant specific procedures applicable to your Cedar Rapids plant, was in many aspects compatible with the requirements of 10 CFR 50, Appendix B.

Within the scope of this inspection, we found no instance where you failed to meet NRC requirements.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room.

Sincerely,

Original signed by E. William Brach

E. William Brach, Chief
 Vendor Inspection Branch
 Division of Reactor Inspection and Safeguards
 Office of Nuclear Reactor Regulation

Enclosure:

Inspection Report No. 99901146/89-01
