Washington, D.C. 20472

MAR 20 1989

MEMORANDUM FOR: Frank J. Congel  
Director  
Division of Radiation Protection and  
Emergency Preparedness  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission

FROM: *Dennis H. Kwiatkowski*  
Dennis H. Kwiatkowski  
Assistant Associate Director  
Office of Natural and Technological Hazards

SUBJECT: Final Exercise Report for the June 28, 1988,  
Exercise of the Offsite Radiological Emergency  
Preparedness Plans for the North Anna Power Station

Attached is a copy of the final exercise report for the June 28, 1988, exercise of the offsite radiological emergency preparedness plans site-specific to the North Anna Power Station. This was a full-participation exercise for the Commonwealth of Virginia and Louisa, Spotsylvania, Caroline, Hanover, and Orange Counties. This final exercise report was prepared by the FEMA Region III office staff.

There were no deficiencies identified during this exercise; however, there are several areas requiring corrective action. A schedule for correction of the areas requiring corrective action is included in the report. Based on the results of this exercise, the offsite radiological emergency plans and preparedness remain adequate to protect the health and safety of the public in the event of an accident at the North Anna Power Station, and the 44 CFR 350 approval granted on February 23, 1983, remains in effect.

If you should have any questions, please contact Craig S. Wingo, Chief, Technological Hazards Division, at 646-3026.
