Dear Mr. Reuland:

Thank you for the invitation to have someone from the NRC participate in the NSAC/NUMARC workshops for the 10 CFR 50.59 guideline technology transfer. The NRC shares your interest in encouraging more effective 50.59 evaluations. To that end, Mr. David C. Fischer, a section leader in the NRC's Technical Specifications Branch, will attend the June 15-16, 1989 workshop in San Jose and the June 22-23, 1989 workshop in Baltimore. Mr. Fischer will describe the types of changes, tests, and experiments that involve an unreviewed safety question as discussed in my letter to Mr. Tom Tipton of NUMARC dated May 10, 1989.

Sincerely,
