Washington, DC 20555

Attn: Mr. K. Naidu

Subject: Telecom Regarding Texas Utilities, Commanche Peak Nuclear  
Station Failure Report.

Dear Mr. Naidu,

Per our recent telecom regarding the above subject, we are requesting that a copy of the report be sent to Power Conversion Products. To date, we have received little or no information regarding the reported failures on our Model 3S-130-300 Class 1E Battery Chargers from the Commanche Peak Nuclear Station.

We feel that without this information, we will not be able to undertake appropriate action pending our evaluation of the failures.

Your cooperation will be appreciated.

Sincerely,

POWER CONVERSION PRODUCTS, INC.

Michael Behr  
Manager, Quality Assurance
