

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION III
799 ROOSEVELT ROAD
GLEN ELLYN, ILLINOIS 60137

July 7, 1987

MEMORANDUM FOR: Thomas A. Rehm, Assistant for Operations, Office of
the Executive Director for Operations
FROM: Office of Public Affairs, Region III
SUBJECT: DAILY STAFF NOTE - July 7, 1987

Regional Administrator A. Bert Davis and members of his staff met with officials from Detroit Edison Company July 7 to discuss the results of the licensee's investigation into the unplanned mode change (from cold shutdown to hot shutdown) at the Fermi Nuclear Plant June 26, and the licensee's proposed corrective actions.

Russ Marabito
Public Affairs Officer

FERMI MANAGEMENT MEETING

1. Good Morning
2. Meeting to hear the results of your investigation of uncontrolled heatup.
3. Meeting will be chaired by EGG
4. Before turning meeting over to EGG, I want to again express my concern regarding this event.
5. You have taken many steps to control operations in the CR.
6. Yet there appear to be a lot of similarities between this event and the premature criticality which occurred 2 years ago.
7. This raises the disturbing ? in many peoples minds of DECO's ability to properly run the plant.
8. So its essential we
 - understand why this happened
 - why the ROP didn't work
 - what can be done to correct it and make sure its corrected.
